The CP 8 cinema surround speaker offers high power handling, sensitivity, performance and extended dynamic range required by digital sound formats. The cabinet is equipped with a 1.35" HF voice coil compression driver on a HF horn which offers a signal dispersion of 90° x 60° (H x V). The strong 8" MF/LF driver delivers smooth, extended bass response. The 200 watts continuous power rating (800 watts peak) provides large dynamic range required for digital soundtracks with high reliability. The enclosure is painted with black textured lacquer and equipped with a black front grille. The CP 8 fits in any decor. NOVA's durable EASY MOUNT installation kit enables the quick and safe installation by one person only.
